| (1) Course description / Theme                                                        | Popular films provide important clues for understanding society because they reflect the values and concerns shared by many audiences. In this course, under the guidance of the instructor, students will analyze Japanese society as depicted in films and exchange opinions with other students on important issues. As a result, students are expected to reevaluate their own view of Japan and deepen their understanding of Japanese society.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |        |              |                          |           |            |

| (3) Course Schedule, Contents                                                         | <p>This lecture will consist of film screenings, lectures, student presentations, and discussions.</p> <p>After viewing each film, students will review basic information about the film and the main social issues addressed in the film according to the worksheet, and summarize their own opinions. In the next class, nominated students will present their opinions. (The presenter for each film will be assigned at the first class). However, since some of the films covered in this course exceed 1.5 hours in running time, 2 hours will be allotted for each film.</p> <ol style="list-style-type: none"> <li>1. | Course Description / Theme                                                        | This course will introduce the basic ideas and techniques underlying the design of intelligent computer systems. A specific emphasis will be on the machine learning, statistical, and decision-theoretic modeling paradigm.                                                                                                                                                                                                                                                                                                                                                   |                          |           |                        |             |        |   |
| Knowledge & Abilities students can acquire through the class<br>Course objectives | By the end of this course, students will understand the basis of autonomous agents that efficiently make decisions in fully informed, partially observable and adversarial settings. The techniques students learn in this course are applied to a wide variety of artificial intelligence problems and will serve as the foundation for further study in any application area students choose to pursue.                                                                                                                                                                      |                          |           |                        |             |        |   |

| Course Description / Theme                                                        | Japan is a world leader in photographic technology and Tokyo is a major cultural center. This context presents students with a unique environment in which to explore photography. This class will offer students an opportunity to develop their own unique approaches to photography by encouraging them to experiment with different techniques and methods.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |              |      |               |                     |        |   |
| Knowledge & Abilities students can acquire through the class<br>Course objectives | By the end of the class students should have a better understanding of photography, and how it can be used to creatively interpret their environments and explore ideas.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |              |      |               |                     |        |   |

| Course Description / Theme                                                        |                                                                                               | Tokyo has become a cosmopolitan city today. It is difficult to imagine how life was 150 years ago. Ever since the Meiji Restoration in 1868, Japan underwent a drastic change of modernization and industrialization. Skyscrapers and automobiles dominate the landscape. It is also true that traditional Japanese culture still resides in daily customs and lifestyle. How was it like to be a student 150 years ago? Was it convenient to live in the neighborhood of Minami-Osawa campus? What did people eat for lunch? How many days did it take to travel from Tokyo to Kyoto? This class will focus on the historical background of Tokyo and analyze how cultural values and society had changed in the process of modernization. In general, this course will discuss Japanese history, philosophy and cultural issues from the late seventeenth century to the twentieth century. Ever since the days of the samurai, Tokyo was a megalopolis. Traces of the old castle town can be found in various places.                                                                                                                                                                                                                                                                                                                                                                            |        |               |              |        |   |
| Knowledge & Abilities students can acquire through the class<br>Course objectives |                                                                                               | Students will learn Japanese history from the seventeenth century to present. Through class discussions students will focus and analyze the influence of modernization from their own interests. They will understand the historical context of Japanese culture and evaluate issues from a broad perspective. Finally, to learn more about Tokyo and enjoy your stay!                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |        |               |              |        |   |

Your oral presentation should be the basis of your conclusion.</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |
| How to contact the instructor for questions | <p>Questions are always welcome in class. You can reach me by email or the kibaco system.</p> <p>Further announcements will be made in class.</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |
| Notice for Students                         | <p>I am planning to approach the history of Tokyo from various angles. I will discuss about environmental issues, traditional urban planning and disaster prevention of the Edo period. Everybody interested in making history, you are welcome.</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |

|                                                                                   |                               |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |           |                        |              |        |   |

| Course Description / Theme                                                        |                               | This course examines Tokyo as a tourism metropolis through the approaches of regional geography with a focus on the tourism resources and their distribution in the metropolitan area. Several case studies on Tokyo's history, culture, natural environment and socio-economic environment that have become resources for tourism will be introduced and discussed to identify different forms of tourism in Tokyo. Tokyo's tourism will be studied in comparison with several other global cities to identify the unique characteristics of Tokyo as a tourism metropolis.                                                                                                                                                                                                                                                                                                  |           |                        |              |        |   |
| Knowledge & Abilities students can acquire through the class<br>Course objectives |                               | Upon completion of this course, students will gain a comprehensive understanding of Tokyo's <ul style="list-style-type: none"> <li>▪ Tourism resources and their distribution</li> <li>▪ Main forms of metropolitan tourism</li> <li>▪ Tokyo's evolution and development as a global city</li> <li>▪ Tokyo's status as a tourism metropolis and future prospects</li> </ul>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |           |                        |              |        |   |

| Course Description / Theme                                                        |                            | This course provides an introduction to accounting. In practice, accounting is conducted for external and internal purposes (financial and management accounting, respectively). Financial accounting is intended to provide information to stakeholders outside a company such as shareholders and lenders. Management accounting is intended to provide information to management such as CEOs and division managers. This course overviews both financial and management accounting.                                                                                                                                                                                                                                                                     |         |               |               |        |   |
| Knowledge & Abilities students can acquire through the class<br>Course objectives |                            | Students are expected to understand the overview of accounting, both financial and management accounting. They are also expected to become familiar with technical terminology of accounting, which helps to learn upper-level accounting courses.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |         |               |               |        |   |

| Course Description / Theme                                                        | In this lecture, we will approach sake from multiple perspectives to gain a systematic understanding of sake. Sake is more than just an alcoholic beverage; it has a semantic world. Therefore, this lecture will cover a wide range of areas from sake production, distribution, sales, consumption, history, culture, sake tax and more.                                                                                                                                                                                                                                                                                                                                                                                     |              |        |               |              |        |   |

| Course Description / Theme                                                        |                                                                | This is a course on Japanese and Asian economies. In the lectures, the current situation and issues of the Japanese and Asian economies, especially in Southeast Asia, will be discussed. Participants will make presentations, and students are encouraged to participate actively in the discussions. This course will be an omnibus lecture format with four professors. The lectures will be given in person or online. |              |               |                        |              |   |
| Knowledge & Abilities students can acquire through the class<br>Course objectives |                                                                | The purpose of this lecture is to provide participants with an understanding of the current state of the Japanese and Asian economies and the challenges they face. To gain a deeper understanding, participants will engage in group discussions and presentations.                                                                                                                                                        |              |               |                        |              |   |
